## TEN FAMOUS MEN REVEALED

*By Marian Christy*

From the author of the 2006 blockbuster *Letters from Legends and the Incredible Interviews that Inspired Them* comes a new inside look, this time at ten men who have made a significant mark on our world, whether in entertainment, science, literature, fashion or sports. See them as you've never seen them before: Sylvester Stallone on the "Rocky" life, Anthony Quinn on absolute control, Lord Snowdon on playing games, Roger Clemens on his mother, James Earl Jones on stuttering, Truman Capote on loneliness, Ralph Lauren on dressing for power, Norman Vincent Peale on real guardian angels, Stephen Hawking on hope where there isn't any, and Billy Crystal on kidding around. There's even an afterword about Salvador Dali. Don't miss it!
